

UK Government CO₂ emissions

by

CarbonVisuals

volume visualisations

- Show the volume of carbon dioxide gas at standard pressure and 15 °C
- Are best at communicating a physical sense of scale rather than detailed numerical comparison

Actual volume of UK Government carbon dioxide emissions

2009/10 emissions (weather corrected) →

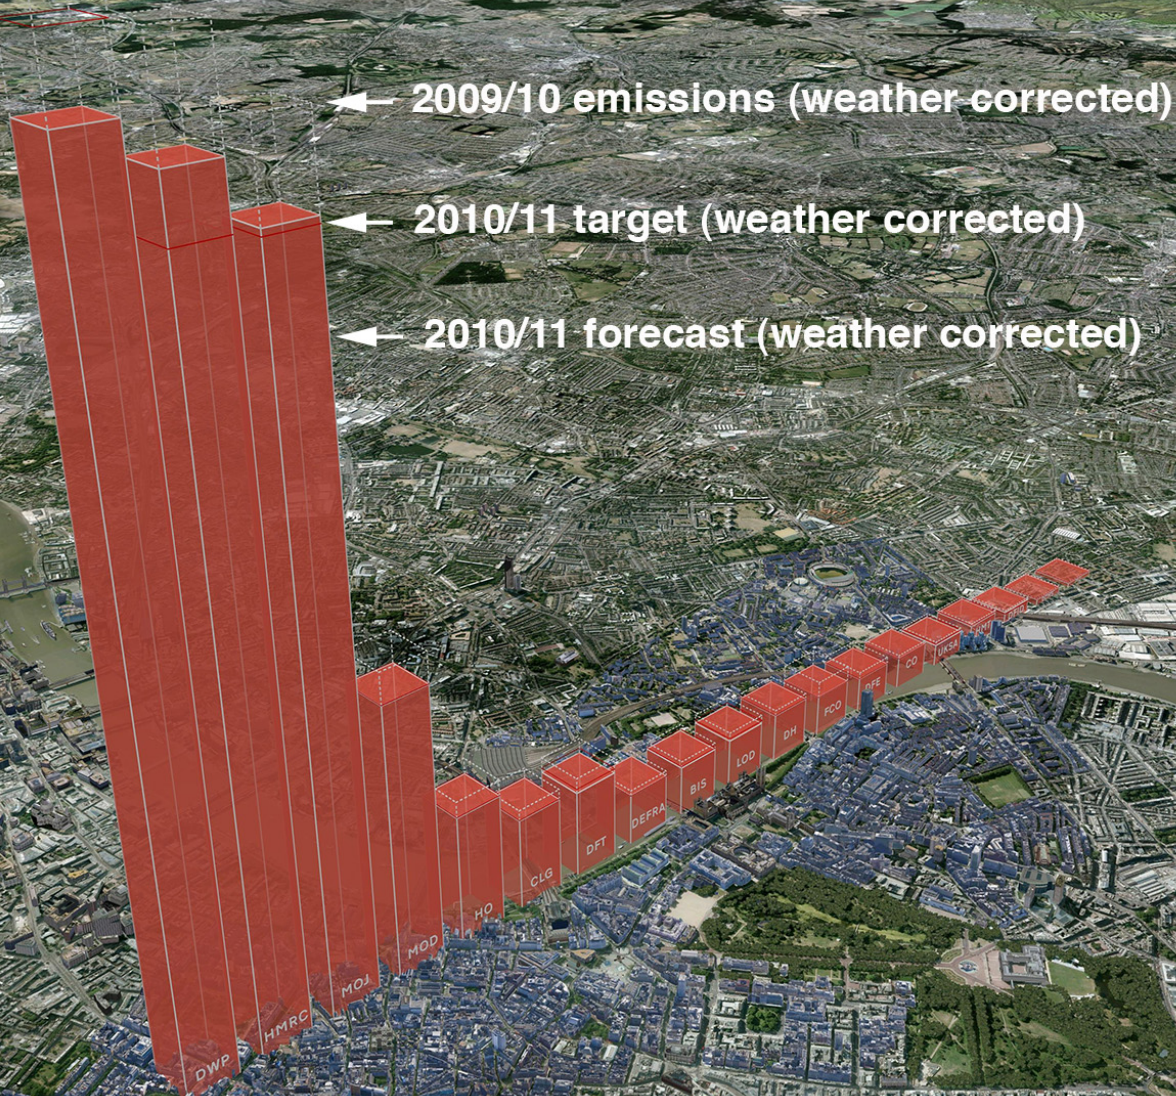

2010/11 target (weather corrected) →

2010/11 forecast (weather corrected) →
